LABOR BOARD MOVES TO PREVENT WALKOUT

SUMMON EXECUTIVES OF ORGANIZATION INVOLVED TO APPEAR BEFORE THEM ON FRIDAY AT ONE O'CLOCK FOR ORDERS

Reports Show That Many Men Are Already Leaving Their Posts and There Will Be a General Walkout.

RAIL CHIEFS ARE STILL FIRM

Chicago, Ill., June 29.—The United States Labor Board moved today to prevent a strike of 400,000 shop men called for 10:00 A. M. Saturday. Officers of the union which have threatened to strike are now taking a strike ballot and railroad executives now meeting here cited to appear before the board at 1:00 P. M. Standard time Friday. The board under authority given to it by the Transportation Act will inquire into the threatened interference with transportation and take whatever steps are deemed advisable to prevent the walkout.

Pittsburgh, Pa., June 29.—Thousands of railroad shop men will strike here Saturday morning, officials of the Pennsylvania System Federation No. 90 announced today. No estimate of the number of men to walk out could be made but Federation officials said the strike call would affect employees of the Pennsylvania's Pitsburgh and North Side Shops, the McKees Rocks Shops of the P. & L. E. and the Glenwood shop of the B. & O. Prompt denial that the Pennsylvania shop men would not be effected was made.

Chicago, Ill., June 29.—Scores of maintenance of ways employees in the West Chicago Railroad yards were reported to be quitting their jobs today following the strike call issued to 400,000 shop craft men last night. The shop workers were ordered to walk out at 10:00 A. M. Saturday. The report that the men were quitting their jobs was strong evidence that the shop craft men would be joined by the maintenance of way men. The strike call ordering the men out on Saturday was issued from the Detroit headquarters.

Washington, D. C., June 29.—The leading railroad executives meeting in Chicago today will flatly reject the demand of E. M. Jewell, head of the railroad department of the American Federation of Labor, that recent wage cuts of the Railroad Labor Board be held up, according to information received in railroad circles here today. The strike call for the shop men has been issued and Jewell and other labor leaders threaten to issue a call to other rail workers unless the reductions are stayed.

Superintendent A. M. Pearce, who has been ill for some time, was out enjoying the balmy air for a few minutes today.

Couples Swap Life Partners and Now All Is Unalloyed Happiness

Slater, Mo., June 29.—Now that the former Mrs. James M. Foree has become Mrs. James W. Cogswell and the former Mrs. James W. Cogswell has become Mrs. James M. Foree, all four declare they are happy.

The Forees and Cogswells were intimate friends. The friendship was so close that when Foree became ill and was taken to Rochester, Minn., his wife asked Mrs. Cogswell to accompany them. The two women attended Foree during his convalescence. Soon after returning, Foree started

Mexican Bandits Release Forty Americans They Held for Money

Washington, June 29.—Mexican bandits have departed from the camp of the Cortez Oil Company near Tampico, releasing the forty Americans who had been held for ransom there, according to advices received today. The bandits informed the Americans they would return next Sunday to claim the 15,000 pesos tribute. At the same time the State Department was informed that bandits had seized the Pecora camp of the La Corona Oil Company, holding six Americans.

NEW ENTRY IN THE COMMUNITY SERVICE BASEBALL LEAGUE

In the Community Service Twilight League, the Clearfield Machine Shops have entered a base ball team, which will take the place of the American Legion team, and enable the league to continue as a six team league. The American Legion, drawing the best players in the town, as a town team, a bit outclassed the rest of the league and this change should make for increased interest. The Machine Shops will play the Red Men at Reedsville on Friday at six.

SENATOR KING WANTS TO KNOW WHO OWNS OIL STOCK

Washington, D. C., June 29.—The Senate Commerce Committee today reported out a resolution by Senator King, Utah, directing the Federal Trade Commission to investigate and report to the Senate the ownership by persons who are not citizens of the United States of shares of the Union Oil Company, California, the Union Oil Company, Delaware, the Union Oil Company, California, and the Shell Oil Company, California. The resolution also asked whether Great Britain, the British Dominions, Holland and Roumania, discriminated against American citizens with respect to ownership of land. The King resolution further ask information on the alleged activity of the three oil concerns in the United States.

ELECTED STATE DELEGATE

Miss Larue Chorpennig, of Clearfield, State General Secretary of Pennsylvania, was elected as a delegate from this State to the World's Convention of the W. C. T. U. to be held in Philadelphia this fall, at the Y. P. B. convention held in DuBois yesterday.

LATEST RETURNS FROM N. DAKOTA FAVOR M'CUMBER

Fargo, N. D., June 29.—Senator Porter J. McCumber piled up a heavy lead in the early vote tabulated in the North Dakota primary over Lynn J. Frazier, Non-partisan for the Republican Senatorial nomination. In 187 precincts out of 2296 in the State the vote stood: McCumber 15,895, Frazier 8,742, a lead for McCumber of 7,153.

FALL RIVER LINER CRASHES INTO ROCK; PASSENGERS SAVED

Newport, R. I., June 29.—The Fall River Liner Providence hit a reef off Newport today. Several hundred passengers enroute from Newport to Fall River were roused from sleep as the ship crashed upon the rocks at Dumplings, crushing in her bow. All of the passengers were safely removed and landed at Jamestown where they were placed aboard a special train and taken to their destinations.

FATAL AUTOMOBILE ACCIDENT OCCURS NEAR ALTOONA

Altoona, Pa., June 29.—William H. Temple is dead, John Shoop is dying and four others are suffering from severe injuries following an automobile accident near Hollidaysburg. Temple, who was driving, lost control of the car which overturned pinning several of the occupants under it.

COX TAKES A FLING AT HARDING BEFORE GOING TO EUROPE

New York, June 28.—Taking a fling at the Harding Administration for its attitude toward the league of nations and other issues, James M. Cox of Ohio, Democratic candidate for President two years ago, sailed for Europe to witness what he described as "the consequence of the steady flow of doing nothing by the present administration at Washington."

He said he would motor through every continental country except Russia in making his study of economic conditions overseas. The trouble with the present Washington Administration, as Governor Cox diagnosed it, is its failure to "look beyond the end of its nose."

DETECTIVES HAVE RUNNING FIGHT IN ROCHESTER YARDS

Rochester, N. Y., June 28.—A gang of car burglars believed to be bootleggers seeking a store of liquor, was beaten from a train after a running fight with detectives in the yards here yesterday. One detective was shot and slightly injured by the bootleggers, one of whom was captured and gave the name of Tony McRidge. The attack on the train resembled that made a band of bootleggers near Hohokus, N. Y., yesterday when eight bootleggers wounded a detective in an effort to seize \$25,000 worth of liquor.

WEDDING ENGAGEMENT ANNOUNCED

Mr. and Mrs. Harvey Wilson announced the engagement of their daughter, Miss Georgia Wilson, to Mr. Alfred Roussey.

My, Jack, You Look Sporty!

Would you recognize him? It's General John J. Pershing in ice-cream trousers and dark coat. One has to wear 'em at Atlantic City, you know. With the general is his sister, Miss Mary Pershing.

William Asbury Chase, Well Known Resident, Died Yesterday P. M.

William Asbury Chase, Sr., one of Clearfield's best known citizens and a member of the pioneer Chase family among the early settlers of Clearfield county, passed away at the Clearfield Hospital, where he had been a patient for the past four or five days, yesterday afternoon at 2:45 o'clock. He had been in good health apparently up until Sunday when he was suddenly taken down with appendicitis. He was removed to the hospital and operated up Sunday evening. The operation disclosed that the appendix was ruptured and gangrene had already set in. It was also readily apparent that there was but slight hope of his recovery. He never rallied and continued to fail until death ended his sufferings at the time stated.

William Asbury Chase was the eldest son of the late John M. Chase, Sr., pioneer farmer and lumberman of the southern end of the county. He was born in Knox township at the mouth of Peets Run, seventy-five years ago. He spent his early life on the farm and in the lumber woods of the county, also engaging in school teaching. During the Civil War he spent six months with his father's regiment and later studied law and was admitted to the Clearfield County Bar, opening an office in Houtzdale, and later removing to Clearfield, where he continued his law business until his retirement from active practice about ten years ago.

He was an intelligent, well posted citizen, and possessed as wide an acquaintance over Clearfield County as any other man in the county, and was generally respected by all who knew him. An uncompromising Republican all his life he took a keen interest in public men and affairs. He was a candidate for the Republican nomination for Judge in 1893 and only failed to land the honor by the slight east of margins.

He was united in marriage at Houtzdale to Miss Elizabeth Moreau, and came to Clearfield with his family about thirty years ago. He is survived by his widow, five sons and two daughters as follows: T. Murray Chase, of Syracuse, N. Y.; Theodore V. Chase, of New York City; Julian A., William A., Jr.; John M. III, Mary A. and Dorothy, all of Clearfield. He is also survived by three brothers and three sisters, viz.: John M. Chase, Jr., Mrs. C. E. Hoover, Mrs. A. L. Kline, Mrs. A. B. Johnson, Katherine Moore and Mr. Joseph (Continued on Page 2).

\$16.50 Tailored Suits, Bought By DuBoises For 4th, Fail To Come

There are a number of people in DuBois who are wondering when they are going to get a \$16.50 "tailored made" suit, orders for which were taken by a supposed agent during the latter part of May. The agent, who claimed that his address was 126 S. Main street, Butler, Pa., canvassed in this city for several days, guaranteeing to deliver a tailor made suit for \$16.50. As a guarantee of faith on the part of the purchasers, a deposit of \$5 was required—not only required, but collected. This transaction took place during the latter part of last May and now it is the last of June, with no suits showing up. The purchasers of these suits are now getting the impression that they were the victims of misrepresentation and that the suits never will make their appearance. They are figuring on sending a representative to Butler to make an investigation.

Check Passer Has Easy Picking Among Altoona Merchants

That check forger who operates only on Saturday afternoons and passes checks for \$10.50 or \$18.50 each and who made cleanups in all the towns throughout this region several months ago, is still at it and going strong. Last Saturday he dropped into Altoona and relieved a lot of glibble merchants of their ready cash in the amounts named above. Like all his previous escapades hereabouts the forger was well on his way before any of his victims discovered they had been flim-flamed.

PLAYGROUNDS WILL OPEN TOMORROW FOR SUMMER OF FUN

The four playgrounds for the children of Clearfield, conducted by Clearfield Community Service, will be opened under supervision tomorrow, Friday morning. The apparatus has arrived and while it may not be all in place for use the first day, there will be plenty of activities to keep the youngsters amused.

Edgar Shaw of this city is quite ill at the Clearfield Hospital with little change in his condition today.

KIDDIES STORM PARK 2,000 STRONG IN DEFIANCE OF THE WEATHER MAN, HAVING "GREATEST TIME OF LIVES"

Steady Stream Of Automobiles Carry A Very Enthusiastic Crowd Of Youngsters To The Driving Park, Beginning Before Eight O'clock. Hundreds Come From Out Of Town.

BAND RIGHT THERE—AND EVERYTHING

The popularity of Clearfield Lodge of Elks as entertainers was entirely too much for old Jupiter Pluvius in the minds of Clearfield kiddies, who bid defiance to old J. P.'s threatening by lining up two thousand strong at the Court House corner this morning and clambered noisily into the automobiles provided by the Elks Transportation Committee for the journey to the Clearfield Driving Park, where the most wonderful day of all the 366 in 1922 was awaiting them.

No kiddie ever takes into account the vagaries of the weather when it comes to picnicking or any other outdoor activity. With the fatalism of youth's innocence they set the time—any time—for enjoying themselves and when that time arrives "go to it" and to the limit.

That was the case today. The Elks promised the kiddies of the community the time of their young lives if they would be the guests of that organization at the park and with the pleasant memories of last year's grand time lingering in their memories how could the kids refuse, weather man, or no.

Before 8 o'clock arrived no less than seventy-five kids were on hand at the Court House Square and these "early birds" were soon bundled into waiting automobiles and with a smiling faced Elk at the wheel were on their way to the Park.

That started the exodus or great trek parkward and from that time until well along toward noon the kiddies came. They came in ones and twos and also flocked in in droves from every section of the town. There were big kids and little kids, fat kids and skinny kids, red heads,

black heads and tow heads, white kids colored kids and all were just kids. They had but one idea in mind, and that was to get over to the park just as quickly as it was possible for wheels to take them.

A competent Committee consisting of Messrs. Guppy, Burns, Migrant, Hummelshausen, Bellas and Chief of Police McMullen loaded the cars and held the army of little people in check long enough to make loading a safe and sane proposition.

This feature was admirably handled and all got away without accident of any kind. As the automobiles discharged their loads of happy youngsters at the park other Committees took them in charge. Each kid as he entered the gate was handed a card of tickets, which entitled him to a crack at everything to be found on the grounds. The perfect order called for a generous portion of each and every one of the things in the refreshment line that little people enjoy, and the kids were soon "spending" their wealth with a prodigality that would have made the proverbial drunken sailor look like a piker.

Ample supplies of all kinds were on hand and in addition to that an entertaining program of amusements were provided, with an Elk or two handy every time a kiddie got tired of what was going on in his immediate vicinity to direct the little feet toward additional and more varied entertainment.

The Clearfield Italian Band added snappy music to the manifold pleasures of the day. The kiddies are having a high old time and you don't need to take our word for it, go over and see for yourself.

CLEARFIELD CONTRACTOR LOW BIDDER

Local Contractor W. B. Hughes, was low bidder on the 7000 feet of county and township road in Irona borough. Bids were opened for this road by the State Highway Department at Harrisburg yesterday. His bid was \$54,345.50.

CHILD'S QUARREL ENDS FATAL BY SHOT FROM RIFLE

Kansas City, Mo. June 29.—A child's quarrel ended fatally here today when Frank Camerosa, aged 9, was shot with a rifle by George Hurlbert, also 9. Camerosa son of a millionaire Italian importer, taunted his playmates with cries of "monkey faces" before the fatal shot was fired.

Historic Dodo.
"As dead as the dodo" is a common expression, but few know what manner of bird the dodo was or what drove it from the face of the earth. The dodo was a large bird, with a huge beak and useless little wings. Portuguese and Dutch sailors found it on the island of Mauritius in the Indian ocean during the sixteenth century. It was so stupid that the Portuguese named it "doudo," simoleon Pigs introduced into the island by the Europeans destroyed its eggs and young, and it became extinct in the seventeenth century.

Atmosphere of the Earth.
Our earth, as it makes its diurnal revolution, carries with it a thin skin of air, which starts becoming rarefied when we go up a few thousand feet; at about seven miles above the ground the air stops growing colder, at 20 miles above the earth is the upper limit of twilight, and at 50 miles begins a region where the atmosphere consists chiefly of hydrogen.

Cabbage in the British Isles.
The Romans are credited with introducing cabbage into England, and the soldiers of Cromwell carried it to Scotland, and made it popular there, as they did also in Ireland, according to tradition.

MYSTERY SUICIDE OF PARIS FOUND TO PUNXSU GIRL, AGE 16,

Paris, France, June 29.—The American Consulate today opened an envelope left by the mysterious woman suicide whose identity has puzzled Paris police since Sunday. A will and a marriage certificate were discovered tending to show that the woman was Mrs. Lee Kohn, of 112 West 72nd St. New York. Before her marriage she was Miss Elizabeth Almonney, an American girl. The will, which was signed Lee Kohn, and dated 1914, left to her all of her husband's property.

KIDNAPED BIELASKI RELEASED BY BANJITS

Mexico City, June 29.—A Bruce Bielaski, kidnapped Sunday, was released this morning. A message stating that Mr Bielaski had been released was received at the American Embassy at 11:15 o'clock. It gave no details except to state that the released man would be in Mexico City tonight.

SHOOTS BETRAYER AFTER 2 YEAR WAIT

Punxsutawney, Pa., June 29.—After searching two years for her alleged betrayer Rose Luce, aged 16, of Vaher today shot and perhaps fatally wounded Philip Scatarogis. He is in a hospital here with a bullet wound in his chest. The girl was arrested after the shooting and lodged in the city jail. The shooting occurred in front of a garage. The girl saw Scatarogis enter the garage and followed him inside. After a lengthy argument, carried on in Italian, the girl screamed "I'll kill you" and drew a revolver. Scatarogis attempted to flee down the street but was dropped by the first shot. He is said to have a wife living in Indiana County.

Wage War on the Fly.
Among the 150 different kinds of bacteria and other organisms taken from the bodies of house flies by different investigators are infantile diarrhea, typhoid fever, anthrax, food poisoning, amoebic dysentery, abscesses, leprosy, tapeworms, hookworms, bubonic plague, conjunctivitis, summer complaint, tuberculosis, enteritis, trachoma, erysipelas, gas gangrene, stomach worms, pinworms and ointbalma.

Copper Welds Iron.
It has been recently discovered that iron may be very firmly and conveniently welded by making use of copper. If a piece of copper on an iron plate be heated in an atmosphere of hydrogen, the copper will spread over the iron in a thin penetrating film. Thus, if the copper be melted between two pieces of iron, it welds them together, the copper film actually working itself in between the crystals of the iron. Blades for steam turbines are among the articles which have been fabricated by this simple and novel means.

LIFE INSURANCE SAFE INVESTMENT

Life insurance is looked upon much differently these days than it used to be. It is now figured as a form of savings and as a form of protection against losses other than death. RIVERS AND HARBORS BILL REPORTED

Washington, June 29.—The Rivers and Harbors Bill was today ordered favorably reported to the Senate by the Commerce Committee with the provisions relating to the Cape Cod, Boston and New York canal and the Dismal Swamp canal in North Carolina omitted. These were ordered new up until Senator Jones, Washington, chairman, makes a poll of the committee to determine whether they should be included in the bill. It is proposed that both of these canals be purchased by the government as connecting links between Boston and the South.

Salvie, of Clearfield, Pa.; and Mrs. L. R. Fulton, of Osceola Mills, is expected to be present for all the services and sing the old Gospel message. Service at 2:30 and 7:30 p. m. All are cordially invited.

The Wicked Crow.
According to the opinion of the British Agricultural department, the crow must be classed as a criminal. In a biography of the bird, issued by the department, it says: "Its ability to commit such misdeeds as pulling corn and stealing eggs and fruit and to get away unscathed is little short of marvellous. Much of the crow's success in life is due to co-operation, and the social instinct of the species has its highest expression in the winter roosts, which are sometimes frequented by hundreds of thousands of crows. From these roosts daily flights of many miles are made in search of food. In its destruction of insects the crow often renders good service but its vicious habit of destroying beneficial wild birds and their eggs puts it on the black list."

By HENRY L. FARRELL
United Press Sports Editor
New York, June 29, (United Press)

Tom York, the old time ball player sits every afternoon at the Polo grounds, keeping actors and barbers out of the press box.

Between times he philosophizes and his deductions are not complimentary to the stamina of the modern ball player.

"The players aren't so bad but the pitchers all have glass arms," he wails, and points back to the days when a pitcher thought nothing of winning thirty to forty games a season.

While changes in the pitching rules introduction of the free swing and the lively ball have worked great handicaps that some of the old time marks for "iron man" feats might be approached this season.

In the first third of the race, Urban Shooker of the Browns engaged in nineteen games and won twelve. Walter Ruth of the Brooklyn Robins pitched thirteen games and won eleven. Both are unusual early season performers.

With any kind of luck, both might win thirty games, and establish a mark that hasn't been equaled in several years.

Red Faber was the only pitcher to win twenty-five games last year, and he lost fifteen doing it. One pitcher that has twenty-five victories in him would put about ten major league clubs in the rearward race.

Modern record, do not compare favorably with the old times, but it does not prove that the race is getting less hardy.

Robert "Doc" Egan, pitcher of the National League is striving out after

some home run honors. He will have accomplished something if he is able to keep up his present homer gait and yet maintain his position as batting champion.

Kenneth Williams, Brown star, was batting over .400 when he started out after a home run record and now he has slipped down under .300.

Babe Ruth's secret ambition for two years has been to lead the American League in batting and still reign as the home run king.

When Ruth has been unable to do it, it is a real job.

When California won the recent intercollegiate track and field championship, no one rose to remark about the long trip from the coast and the change of climate. The east might remember that next fall.

Arguments only work one way when you don't want to argue.

In setting out to wield the iron rod in boxing, the New York commission might employ a few minutes to good advantage by reading its rules.

The commission has the power to declare a title vacant when the holder refuses to give a chance to a bona fide challenger every six months—providing that the champion won his title under the New York rules.

John Buff, the bantamweight champion and Harry Grob the light heavy weight champion, are the only two title-holders affected as they won their crowns in a New York ring.

Johnny Kilbane won his regal robes in California and Johnny Wilson won his by a questionable decision in Bos-

WAS SO NERVOUS COULDN'T SLEEP

Eighty Years Old, Says This Remedy Made Him Well.

He went on crutches for two years from neuritis and was so weak, nervous and run down that he could not sleep and yet after taking Nerv-Worth he regained his health and strength and had no return of his neuritic trouble or nervousness. That was the story told one of our representatives by Capt. Mitchell, one of the prominent citizens of Cory, Pa.

If you suffer from stomach trouble, bowel trouble or rheumatism, neuritis, sleeplessness, nervousness brought on by indigestion or chronic stomach or bowel trouble you should immediately try the famous Nerv-Worth that has brought health and comfort to so many ailing people after other remedies had failed and they had about given up hope. It is sold by most druggists at one dollar and each druggist is authorized to give the money back if the results from the first bottle are not encouraging. It is always on sale at the Stewart Drug Store in this city. It is a splendid remedy for constipation, indigestion or nervousness for delicate women or growing children and its pleasant taste attracts them to it.

ODDS AND ENDS AND THINGS

By J. D. C.

Pennsylvania's share of the appropriation of Government funds for road construction authorized under the additional appropriations bill signed by the President on June 19 is \$2,265,989. The United States Department of Agriculture, which will administer the funds thru the Bureau of Public Roads, in explaining the appropriation of federal aid for road construction explains that \$50,000,000 of the \$190,000,000 provided for the appropriation bill is authorized for the fiscal year beginning July 1 next and \$65,000,000 and \$75,000,000, respectively for each of the two succeeding years.

The funds allotted to the various states must be matched by the states and are to be administered subject to general provisions already in force.

Being more or less interested in this subject of taking on two much adipose tissue on and after the "half way post" on life's journey is reached, we can't resist the temptation to inflict the following on our fair, fat and forty friends and readers:

If you wish to know whether you are growing old get on the scales. Then measure your height accurately and consult a table of weight-for-height-for-age. You will find that any such table records an increase of weight as the concomitant of increasing years. And while nothing more is claimed for the table than that it represents averages, you may accept it as representing a fair record of facts. Probably there is no other simple record that is more dependable. Obesity and age are very closely associated.

This may be your fortieth birthday but if you find you are weighing 20 pounds or so more than the tables say you should, you may count yourself a good many years past forty as regards bodily activities. Your "expectation" of long life is below par. That very unsentimental person, the life insurance actuary, feels so sure of this that he will not accept you as an average "risk" for his company. He refuses to be fooled by your birth certificate.

In a word then the individual who accumulates fat advertises an infirmity. It may be that he eats too much. It may be that he is not exercising enough. It may be that the little ductless glands that controls the bodily activities are not functioning normally. But whatever the cause, the body that is accumulating fat is having a handicap imposed upon it.

Most of us regard growing old as a joke. Growing old prematurely is a calamity. Obesity is an old-age signal that no wise person will disregard. If the fat signals merely tell of over eating or lack of exercise, the remedy is obvious. Eat less and exercise more. That is a very difficult formula to follow but it calls for only courage and persistent effort, and depends entirely upon yourself. It is not even necessary to study tables of calories, although there is no harm in doing so.

It may suffice to follow such a practical rule of thumb as this: Take only a moderate helping of any food and never take a second helping at that meal. Cut out desserts and eat nothing between meals. This regimen alone may suffice to bring your weight back to normal.

As for exercise it may be said that ten minutes a day of well directed effort will accomplish wonders for some people, and something for every one. Exercise must really be vigorous in order to count. But exercise with no restriction of diet is without avail, however vigorous. There may be causes for obesity that do not lie within your unaided control, but this should not be assumed until you have tried faithfully the reducing power of diet and exercise.

INDEPENDENCE NOT YET

When President Harding informed the Filipino mission that the time has not yet come for the United States to relinquish control over the Philippines, he felt deeply the responsibility which is America's. The president's attitude can not have been a great disappointment to the members of the mission, who knew before they left on their quest that their effort must fail.

There have never been indications that it were wise for this country to surrender its charge of the islands. Since General Wood's report was made, detailing at length why in his judgment independence for the Philippines is inadvisable now, there has not been the slightest indication that this country would change its attitude.

The president, like the people, sincerely sympathizes with Filipino aspirations. If those people had no craving for independence we should not esteem them as we do, for it would be apparent that they were far from that state of development in which they might be entrusted with control of their own affairs. Progress they have made since the United States rescued them from the degrading clutches of Spain. They have been given training and proved themselves such apt pupils that their domestic affairs are under native management.

President Harding told the mission the Filipinos would be "unfitted for the solemn duties of self-government without national aspirations," which is to say their present lack is a national consciousness moving them to think in terms of the common welfare in their relations with the outside world. This will come in time, as the people are more accustomed to managing their domestic affairs and become conscious of the responsibilities which a nation must assume.

Very properly the president declined to indicate to the mission when he thought the Filipinos would be equipped to "go it alone." It depends on the Filipinos themselves when they shall become independent in every sense of the term. Under American tutelage they will continue to make progress. While America shoulders the expense and responsibility of their foreign relations and their defense their growing youth are given education, theoretical and practical, which should qualify them not many years in the future to undertake the duties of government for which it is this country's earnest aim to fit them.

The dean of the college of engineering, University of Cincinnati, so the story runs, received a letter from the president of a large corporation manufacturing electrical supplies complimenting the institution for turning out such students as George Sperti. The name meant nothing to the dean, so he went among the engineering college professors and soon discovered that George Sperti is "a hopeless dullard, who is flunking in everything." He was so far below the standard as measured by modern intellectual appraisal procedure that he was considered only as one of the large field beaten before the race begins.

Then the dean wrote to the electrical corporation president asking his object in sending his compliments to the university in the Sperti case, so the story continues to move, and in due course received the information that the corporation had just bought for \$50,000 an entirely new type of electrical meter, invented and patented by the "hopeless dullard." The question would seem to be whether it may not be better to weigh values by the practical results of a young man's use of his brains than the verdict of a pedantic "I Q"—especially when one contradicts the other so decisively.

The bloody disorders in the Herrin coal fields in Illinois is a manifestation of an ugly spirit that shocks the nation. When forty or more men perish in an industrial battle as barbarous and violent as lynching, burnings, drownings and shooting, it startles a country accustomed even to the wholesale killings of a recent war.

No one of course does or can condone such an outrage. The fact that some men went to work in a mine which had been closed down by the strike is not sufficient provocation for shooting them down or hanging them to trees. In so far as they went to and kept at work peacefully they were merely making use of their guarantees of the constitution of their country. If they went beyond that and became law breakers themselves, then their cases were for the courts and not for the mob.

A nation that does not protest against and condemn such outlawry is not worthy of a free government. A government that does not punish the guilty is not fit to function. The outrage is unspeakable and its seriousness must not be underestimated.

DADDY OF AMERICAN LEGION

Lester Jones of Washington, D. C., Founder of the Movement Back in 1919.

Lester Jones of Washington, D. C., because he was the founder of the American Legion movement in America, was called the "daddy" of the organization back in 1919 and the title has stayed with him ever since.

Mr. Jones was one of a handful of veterans who met in Washington, March 7, 1919, and formed what was known as the John J. Pershing post of World War Veterans. Later, when the several societies of those who had fought in the World War combined under the name of the American Legion, Mr. Jones was made commander of the newly-formed George Washington post, No. 1. When the department of the District of Columbia was formed, he was made departmental commander.

Legionnaire Jones was an enlisted man with the District of Columbia National Guard prior to the World war. During the war he rose from private to colonel, taking all the grades.

LEGION HONORED ALL DEAD

Organization Participated in Services at Final Interment of Men Brought Home.

Army transports in which many of them went across, eager for the comfort they have carried back the last of the 20,000 A. E. F. dead, those relatives who requested to be returned to this country for permanent burial. The graves registration service of the army, which had the work of returning these bodies in charge, did an almost superhuman task. But this service could not give the comradely human touch to the handling of these bodies after they reached the United States that seemed due them.

No organization was so well suited to perform the last rights of honor and respect for these soldier dead as was the American Legion. The men of the Legion took upon themselves the obligation. Forty ship loads of bodies came to eastern ports during a period of two and a half years. It was not always possible to have an elaborate service, because the arrivals were too frequent, but in every instance there was at least a prayer by a chaplain of the Protestant, Catholic or Jewish faith, an address by a prominent citizen or army officer and a rifle salute. A number of times, however, the services were noteworthy. President Harding delivered an address at services arranged by the Legion, May 23, 1921, when the Princess Matoika arrived with 451 bodies. General Pershing and Senator Lodge spoke when the Somme and the Wheaton arrived July 10, 1921, with 7,000 dead. The last cargo of bodies arrived in Brooklyn in April, 1922, on the Cambray. On that occasion, the body of Private Charles W. Graves, Company M, One Hundred and Seventeenth Infantry, Thirteenth division, was borne in a caisson through the streets, lined with silent throngs, to the army base. There simple ceremonies marked the close of the last public demonstration for America's returned dead.

RAN TOWARD BERLIN IN 1918

Clarence De Mar, Winner of 25-Mile American Marathon Race, In-Created in Boy Scouts.

Clarence H. DeMar of Melrose, Mass., winner of the 25-mile American Marathon race, got some of his endurance as a long-distance runner while running toward Berlin in 1918, and he undoubtedly acquired a good deal of his agility and sureness of foot while dodging Fritz's missiles. De Mar finished fourth in a long-distance race between the men of the A. E. F. and the other allied nations in the Pershing stadium in Paris.

His chief interest, however, does not seem to be in racing, but in the welfare of a troop of boy scouts of which he has been in charge for several years.

Ten Years to Displace the Blue.

It will require about ten years to clothe all French troops in khaki despite the efforts of the higher council of war to equip all branches of the French army in uniforms of that color. The horizon blue and steel gray cloth on hand must be used up and it will take ten years to do it, the ministry of war declares.

Operators And Miners To Meet Harding Saturday

Washington, D. C., June 28.—Invitations went out from the White House today asking the leaders of the striking miners and the representatives of the employing coal operators in both the bituminous and anthracite fields of the United States to meet President Harding Saturday to "devise methods upon which negotiations for the settlement of the coal strike can be initiated."

The communications made evident that careful and complete discussions with spokesmen on both sides of the industrial struggle had preceded the meeting call, and prompt and ready acceptances are expected immediately.

Lewis Accepts for Men

John L. Lewis chief of the United Mine Workers, who remained in the city after a personal interview with President, accepted at once in behalf of the union.

The wording of the President's message was interpreted as demonstrating the desire of the Administration to hold the meeting above the controversies which have deadlocked the unionized section of the industry since April 1. Official, but informal, comment emphasized it was the intention that the conference should be held merely to discuss ways and means for a settlement, and not to take up the miners' demands for continuance of war-time wage scales, nor the operators' demand in the bituminous field for separate district wage agreements supplanting the semi-national wage contracts that have heretofore been made.

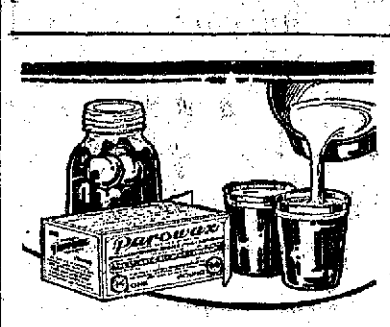

It was fully expected that when the meeting assembled the President or his Cabinet members who have participated in the preliminary efforts would have a program for continuation of the settlement attempt to present to the assemblage. There was no hint as to the line such a program might follow.

Face Danger Steadfastly.

Dangers are no more light, if they once seem light; and more dangers have deceived men than forced them; nay, it were better to meet some dangers half-way, though they come nothing near, than to keep too long a watch upon their approaches; if a man watch too long, it is odds he will fall asleep.—Lord Bacon.

Dublin, Ireland, June 29.—Irish revolutionists took the offensive this afternoon in their battle with Free State troops. The insurgents, assisted by armed Independent Workers of the World, are seizing strategic buildings on the street corners throughout Dublin. The fight at the Four Courts is continuing with street battles in progress at many other points. British troops are on guard at the banks to prevent raids being made on them.

FLANNERY JURY, STILL OUT, WEAR OUT CLOTHING

Pittsburgh, Pa., June 29.—The jury in the trial of James J. Flannery, Hazelwood undertaker, was still without a verdict when court convened here after lunch. Extra change of clothes were sent into the jury room, indicating an attempt will be made to equal the record of several years ago when a jury was out eleven days.

GREAT CARD OF BOXING ARRANGED FOR THE FOURTH

Prize fight fans and all others who are interested in good clean sport are well pleased with the card arranged by the Legion boys for the night of July 4th and the way in which the fights will be conducted. Some of the leading pugilists in the Pittsburgh district have contracted and as four of the men secured are contenders for the title in their weight you can be assured of sixty seconds fight every minute.

In the main bout of ten rounds Eddie Boreland, of McKeesport meets Young Mulligan of Pittsburgh. Boreland, known as the miniature Jack Dempsey challenges the best in the world at 126 to 133 pounds and is reputed to be one of the best young fighters at his weight in the country. He has fought in over 100 bouts and has a record of twelve knockouts in the last twenty-five fights.

Mulligan is Champion of the U. S. Navy yards at Philadelphia in his weight and has on two previous occasions met Boreland in draw fights and has knocked out or been given the decision in a big majority of his 150 fights. These men fight at 133 pounds.

Jack Provisti of Wilmerding meets Johnny Kerston in the eight-rounds semi-final at 141 pounds. Both of these men have been fighting main bouts all year and were secured to fight other than the main bout by special inducement of those in charge. Both of these men are clever in the boxing end of the game and carry a hefty wallop so it would not be surprising if those who attend the fights will witness a better battle between Provisti and Kerston than the one last year between John Wolgast and Sailor Remshaw.

The first bout will be between Knockout Terry of McKeesport and Jack Smith of Pittsburgh, two feather

weights who have taken part in forty fights and are both exceptionally fast. They will fight eight rounds.

All of the above fighters have signed a contract to the effect that if "He is found stalling and not putting forth his best efforts he can immediately be disqualified and shall receive no share of the proceeds." This provision in the contracts insures the people that the fights will not be faked and that every participant will have to be in the game every minute to receive any part of the gate receipts. To further insure the patrons of the fight the best that can be secured the Legion has asked and received the acceptance of most of the following men to act as Boxing Commission: J. P. O'Laughlin, Esq., Dr. G. B. Yeane, Ralph Jordan, J. D. Connelly, Charles Oberdick, Thos. J. Lowell, Roy Healey, Howard Burns, all of Clearfield and John Irwin of Curwensville. This Commission will, thru the referee, notify or disqualify any fighter who in their opinion is not putting forth his best efforts.

You may use this letter to help other girls, as the letters in your book helped me."—ROSS WARDEN, 3922 Reseland Place, Baltimore, Md.

That is the thought so often expressed in letters recommending Lydia E. Pinkham's Vegetable Compound. These women know what they have suffered, they describe their symptoms and state how they were finally made well. Just plain statements, but they want other women to be helped.

Lydia E. Pinkham's Vegetable Compound is a medicine made from medicinal roots and herbs, and without drugs, to relieve the sickness women so often have, which is indicated by backache, weak feelings, nervousness, and no ambition to get anything done or to go anywhere. It has helped many women. Why not try it?

We Recommend the Tires That Have Won Every Important Racing Classic for Two Years

ONE of the reasons why you can be sure of Oldfield reliability under all conditions is their performance on the speedways during 1920 and 1921.

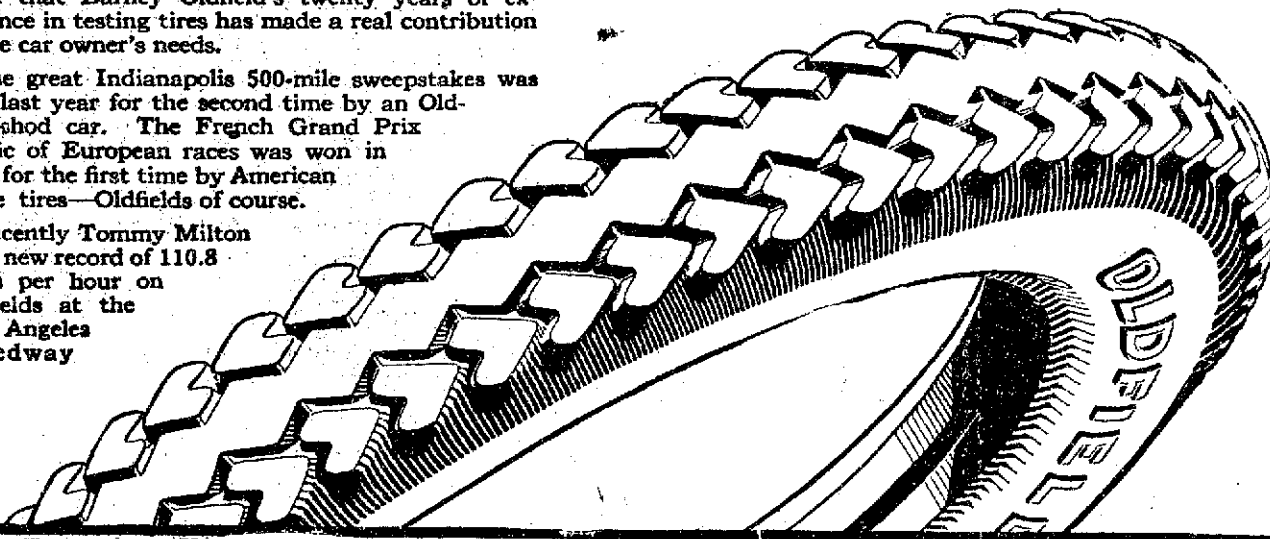

When you consider that every important racing classic in that time has been won on Oldfield Cords you cannot fail to be impressed. It is incontrovertible proof that Barney Oldfield's twenty years of experience in testing tires has made a real contribution to the car owner's needs.

The great Indianapolis 500-mile sweepstakes was won last year for the second time by an Oldfield-shod car. The French Grand Prix classic of European races was won in 1921 for the first time by American made tires—Oldfields of course.

Recently Tommy Milton set a new record of 110.8 miles per hour on Oldfields at the Los Angeles Speedway

when he paced first in the 250-mile championship

Such facts are doubly important to you when you appreciate that these same trustworthy tires carry our own and the maker's backing can be bought at the lowest prices on record. It is easy to see why so many car owners hereabout are standardizing on Oldfield's for this year.

ALTOONA VISITORS ARE VERY GRATIFIED

The five hundred Altoona visitors who picnicked at the Clearfield Driving Park yesterday were highly pleased with Clearfield, the Park and the manner in which Clearfield people made them welcome.

Mayor Kittelberger, Presidents of Bigler of the Rotary Club and Franz of the Commercial Club, with large corps of assistants, saw to it that the visitors were transported from the Pennsy. station to the Park upon their arrival in the morning, and also braved the heavy rain in the evening to get the picnickers back to the train with the least inconvenience.

The whole thing was handled in Clearfield's usual fine style, six more automobiles being lined up at the park in the evening than were necessary to handle the crowd. Addresses were made at the park by Mayor Kittelberger, in the afternoon, who extended the freedom of the town in a few well chosen sentences. Rev. Horace Lincoln Jacobs, of Trinity church, a former Mountain City resident, made a snappy address to the visitors which was exceptionally well received. The visitors were very grateful for their reception and promised to long remember their visit here.

The following was given to The Progress for publication:

"The Committee of the P. R. R. Shops of Altoona, picnicking at Clearfield Driving Park, wishes to thank Mayor Kittelberger, the Clearfield Park Association for the royal welcome extended them. Our thanks are especially due and extended also to Rev. H. L. Jacobs, the Rotary and Commercial Clubs and those merchants who provided the cantaloupes

LABOR BOARD MOVES TO PREVENT WALKOUT

SUMMON EXECUTIVES OF ORGANIZATION INVOLVED TO APPEAR BEFORE THEM ON FRIDAY AT ONE O'CLOCK FOR ORDERS

Reports Show That Many Men Are Already Leaving Their Posts and There Will Be a General Walkout.

RAIL CHIEFS ARE STILL FIRM

Chicago, Ill., June 29.—The United States Labor Board moved today to prevent a strike of 400,000 shop men called for 10:00 A. M. Saturday. Officers of the union which have threatened to strike are now taking a strike ballot and railroad executives now meeting here cited to appear before the board at 1:00 P. M. Standard time Friday. The board under authority given to it by the Transportation Act will inquire into the threatened interference with transportation and take whatever steps are deemed advisable to prevent the walkout.

Pittsburgh, Pa., June 29.—Thousands of railroad shop men will strike here Saturday morning, officials of the Pennsylvania System Federation No. 90 announced today. No estimate of the number of men to walk out could be made but Federation officials said the strike call would affect employees of the Pennsylvania's Pitsburgh and North Side Shops, the McKees Rocks Shops of the P. & L. E. and the Glenwood shop of the B. & O. Prompt denial that the Pennsylvania shop men would not be effected was made.

Chicago, Ill., June 29.—Scores of maintenance of ways employees in the West Chicago Railroad yards were reported to be quitting their jobs today following the strike call issued to 400,000 shop craft men last night. The shop workers were ordered to walk out at 10:00 A. M. Saturday. The report that the men were quitting their jobs was strong evidence that the shop craft men would be joined by the maintenance of way men. The strike call ordering the men out on Saturday was issued from the Detroit headquarters.

Washington, D. C., June 29.—The leading railroad executives meeting in Chicago today will flatly reject the demand of E. M. Jewell, head of the railroad department of the American Federation of Labor, that recent wage cuts of the Railroad Labor Board be held up, according to information received in railroad circles here today. The strike call for the shop men has been issued and Jewell and other labor leaders threaten to issue a call to other rail workers unless the reductions are stayed.

Mexican Bandits Release Forty Americans They Held for Money

Washington, June 29.—Mexican bandits have departed from the camp of the Cortez Oil Company near Tampico, releasing the forty Americans who had been held for ransom there, according to advices received today. The bandits informed the Americans they would return next Sunday to claim the 15,000 pesos tribute. At the same time the State Department was informed that bandits had seized the Pecora camp of the La Corona Oil Company, holding six Americans.

NEW ENTRY IN THE COMMUNITY SERVICE BASEBALL LEAGUE

In the Community Service Twilight League, the Clearfield Machine Shops have entered a base ball team, which will take the place of the American Legion team, and enable the league to continue as a six team league. The American Legion, drawing the best players in the town, as a town team, a bit outclassed the rest of the league and this change should make for increased interest. The Machine Shops will play the Red Men at Reedsville on Friday at six.

SENATOR KING WANTS TO KNOW WHO OWNS OIL STOCK

Washington, D. C., June 29.—The Senate Commerce Committee today reported out a resolution by Senator King, Utah, directing the Federal Trade Commission to investigate and report to the Senate the ownership by persons who are not citizens of the United States of shares of the Union Oil Company, California, the Union Oil Company, Delaware, the Union Oil Company, California, and the Shell Oil Company, California. The resolution also asked whether Great Britain, the British Dominions, Holland and Roumania, discriminated against American citizens with respect to ownership of land. The King resolution further ask information on the alleged activity of the three oil concerns in the United States.

ELECTED STATE DELEGATE

Miss Larue Chorpennig, of Clearfield, State General Secretary of Pennsylvania, was elected as a delegate from this State to the World's Convention of the W. C. T. U. to be held in Philadelphia this fall, at the Y. P. B. convention held in DuBois yesterday.

LATEST RETURNS FROM N. DAKOTA FAVOR M'CUMBER

Fargo, N. D., June 29.—Senator Porter J. McCumber piled up a heavy lead in the early vote tabulated in the North Dakota primary over Lynn J. Frazier, Non-partisan for the Republican Senatorial nomination. In 187 precincts out of 2296 in the State the vote stood: McCumber 15,895, Frazier 8,742, a lead for McCumber of 7,153.

FALL RIVER LINER CRASHES INTO ROCK; PASSENGERS SAVED

Newport, R. I., June 29.—The Fall River Liner Providence hit a reef off Newport today. Several hundred passengers enroute from Newport to Fall River were roused from sleep as the ship crashed upon the rocks at Dumplings, crushing in her bow. All of the passengers were safely removed and landed at Jamestown where they were placed aboard a special train and taken to their destinations.

Altoona, Pa., June 29.—William H. Temple is dead, John Shoop is dying and four others are suffering from severe injuries following an automobile accident near Hollidaysburg. Temple, who was driving, lost control of the car which overturned pinning several of the occupants under it.

COX TAKES A FLING AT HARDING BEFORE GOING TO EUROPE

New York, June 28.—Taking a fling at the Harding Administration for its attitude toward the league of nations and other issues, James M. Cox of Ohio, Democratic candidate for President two years ago, sailed for Europe to witness what he described as "the consequence of the steady flow of doing nothing by the present administration at Washington." He said he would motor through every continental country except Russia in making his study of economic conditions overseas. The trouble with the present Washington Administration, as Governor Cox diagnosed it, is its failure to "look beyond the end of its nose."

DETECTIVES HAVE RUNNING FIGHT IN ROCHESTER YARDS

Rochester, N. Y., June 28.—A gang of car burglars believed to be bootleggers seeking a store of liquor, was beaten from a train after a running fight with detectives in the yards here yesterday. One detective was shot and slightly injured by the bootleggers, one of whom was captured and gave the name of Tony McRidge. The attack on the train resembled that made a band of bootleggers near Hohokus, N. Y., yesterday when eight bootleggers wounded a detective in an effort to seize \$25,000 worth of liquor.

WEDDING ENGAGEMENT ANNOUNCED

Mr. and Mrs. Harvey Wilson announced the engagement of their daughter, Miss Georgia Wilson, to Mr. Alfred Roussey.

My, Jack, You Look Sporty!

Would you recognize him? It's General John J. Pershing in ice-cream trousers and dark coat. One has to wear 'em at Atlantic City, you know. With the general is his sister, Miss Mary Pershing.

William Asbury Chase, Well Known Resident, Died Yesterday P. M.

William Asbury Chase, Sr., one of Clearfield's best known citizens and a member of the pioneer Chase family among the early settlers of Clearfield county, passed away at the Clearfield Hospital, where he had been a patient for the past four or five days, yesterday afternoon at 2:45 o'clock. He had been in good health apparently up until Sunday when he was suddenly taken down with appendicitis. He was removed to the hospital and operated on Sunday evening. The operation disclosed that the appendix was ruptured and gangrene had already set in. It was also readily apparent that there was but slight hope of his recovery. He never rallied and continued to fail until death ended his sufferings at the time stated.

William Asbury Chase was the eldest son of the late John M. Chase, Sr., pioneer farmer and lumberman of the southern end of the county. He was born in Knox township at the mouth of Peets Run, seventy-five years ago. He spent his early life on the farm and in the lumber woods of the county, also engaging in school teaching. During the Civil War he spent six months with his father's regiment and later studied law and was admitted to the Clearfield County Bar, opening an office in Houtzdale, and later removing to Clearfield, where he continued his law business until his retirement from active practice about ten years ago.

He was an intelligent, well posted citizen, and possessed as wide an acquaintance over Clearfield County as any other man in the county, and was generally respected by all who knew him. An uncompromising Republican all his life he took a keen interest in public men and affairs. He was a candidate for the Republican nomination for Judge in 1893 and only failed to land the honor by the slight east of margins.

He was united in marriage at Houtzdale to Miss Elizabeth Moreau, and came to Clearfield with his family about thirty years ago. He is survived by his widow, five sons and two daughters as follows: T. Murray Chase, of Syracuse, N. Y.; Theodore V. Chase, of New York City; Julian A., William A., Jr.; John M. III, Mary A. and Dorothy, all of Clearfield. He is also survived by three brothers and three sisters, viz.: John M. Chase, Jr., Mrs. C. E. Hoover, Mrs. A. L. Kline, Mrs. A. B. Johnson, Katherine Moore and Mr. Joseph (Continued on Page 2).

\$16.50 Tailored Suits, Bought By DuBoises For 4th, Fail To Come

There are a number of people in DuBois who are wondering when they are going to get a \$16.50 "tailored made" suit, orders for which were taken by a supposed agent during the latter part of May. The agent, who claimed that his address was 126 S. Main street, Butler, Pa., canvassed in this city for several days, guaranteeing to deliver a tailor made suit for \$16.50. As a guarantee of faith on the part of the purchasers, a deposit of \$5 was required—not only required, but collected. This transaction took place during the latter part of last May and now it is the last of June, with no suits showing up. The purchasers of these suits are now getting the impression that they were the victims of misrepresentation and that the suits never will make their appearance. They are figuring on sending a representative to Butler to make an investigation.

Check Passer Has Easy Picking Among Altoona Merchants

That check forger who operates only on Saturday afternoons and passes checks for \$10.50 or \$18.50 each and who made cleanups in all the towns throughout this region several months ago, is still at it and going strong. Last Saturday he dropped into Altoona and relieved a lot of glibble merchants of their ready cash in the amounts named above. Like all his previous escapades hereabouts the forger was well on his way before any of his victims discovered they had been flim-flamed.

PLAYGROUNDS WILL OPEN TOMORROW FOR SUMMER OF FUN

The four playgrounds for the children of Clearfield, conducted by Clearfield Community Service, will be opened under supervision tomorrow, Friday morning. The apparatus has arrived and while it may not be all in place for use the first day, there will be plenty of activities to keep the youngsters amused.

Edgar Shaw of this city is quite ill at the Clearfield Hospital with little change in his condition today.

KIDDIES STORM PARK 2,000 STRONG IN DEFIANCE OF THE WEATHER MAN, HAVING "GREATEST TIME OF LIVES"

Steady Stream Of Automobiles Carry A Very Enthusiastic Crowd Of Youngsters To The Driving Park, Beginning Before Eight O'clock. Hundreds Come From Out Of Town.

BAND RIGHT THERE—AND EVERYTHING

The popularity of Clearfield Lodge of Elks as entertainers was entirely too much for old Jupiter Pluvius in the minds of Clearfield kiddies, who bid defiance to old J. P.'s threatening by lining up two thousand strong at the Court House corner this morning and clamored noisily into the automobiles provided by the Elks Transportation Committee for the journey to the Clearfield Driving Park, where the most wonderful day of all the 365 in 1922 was awaiting them.

No kiddie ever takes into account the vagaries of the weather when it comes to picnicking or any other outdoor activity. With the fatalism of youth's innocence they set the time—any time—for enjoying themselves and when that time arrives "go to it" and to the limit.

That was the case today. The Elks promised the kiddies of the community the time of their young lives if they would be the guests of that organization at the park and with the pleasant memories of last year's grand time lingering in their memories how could the kids refuse, weather man, or no.

Before 8 o'clock arrived no less than seventy-five kids were on hand at the Court House Square and these "early birds" were soon bundled into waiting automobiles and with a smiling faced Elk at the wheel were on their way to the Park.

That started the exodus or great trek parkward and from that time until well alone toward noon the kiddies came. They came in ones and twos and also flocked in in droves from every section of the town. There were big kids and little kids, fat kids and skinny kids, red heads,

black heads and tow heads, white kids colored kids and all were just kids. They had but one idea in mind, and that was to get over to the park just as quickly as it was possible for wheels to take them.

A competent Committee consisting of Messrs. Guppy, Burns, Migrant, Hummelbaugh, Bellas and Chief of Police McMullen loaded the cars and held the army of little people in check long enough to make loading a safe and sane proposition.

This feature was admirably handled and all got away without accident of any kind. As the automobiles discharged their loads of happy youngsters at the park other Committees took them in charge. Each kid as he entered the gate was handed a card of tickets, which entitled him to a crack at everything to be found on the grounds. The perfect order called for a generous portion of each and every one of the things in the refreshment line that little people enjoy, and the kids were soon "spending" their wealth with a prodigality that would have made the proverbial drunken sailor look like a piker.

Ample supplies of all kinds were on hand and in addition to that an entertaining program of amusements were provided, with an Elk or two handy every time a kiddie got tired of what was going on in his immediate vicinity to direct the little feet toward additional and more varied entertainment.

The Clearfield Italian Band added snappy music to the manifold pleasures of the day. The kiddies are having a high old time and you don't need to take our word for it, go over and see for yourself.

CHILD'S QUARREL ENDS FATAL BY SHOT FROM RIFLE

Kansas City, Mo. June 29.—A child's quarrel ended fatally here today when Frank Camerosa, aged 9, was shot with a rifle by George Hurlbert, also 9. Camerosa son of a millionaire Italian importer, taunted his playmates with cries of "monkey faces" before the fatal shot was fired.

Historic Dodo.

"As dead as the dodo" is a common expression, but few know what manner of bird the dodo was or what drove it from the face of the earth. The dodo was a large bird, with a huge beak and useless little wings. Portuguese and Dutch sailors found it on the island of Mauritius in the Indian ocean during the sixteenth century. It was so stupid that the Portuguese named it "doudo," simoleon Pigs introduced into the island by the Europeans destroyed its eggs and young, and it became extinct in the Seventeenth century.

Atmosphere of the Earth.

Our earth, as it makes its diurnal revolution, carries with it a thin skin of air, which starts becoming rarefied when we go up a few thousand feet; at about seven miles above the ground the air stops growing colder, at 20 miles above the earth is the upper limit of twilight, and at 50 miles begins a region where the atmosphere consists chiefly of hydrogen.

MYSTERY SUICIDE OF PARIS FOUND TO PUNXSU GIRL, AGE 16,

Paris, France, June 29.—The American Consulate today opened an envelope left by the mysterious woman suicide whose identity has puzzled Paris police since Sunday. A will and a marriage certificate were discovered tending to show that the woman was Mrs. Lee Kohn, of 112 West 72nd St. New York. Before her marriage she was Miss Elizabeth Almonney, an American girl. The will, which was signed Lee Kohn, and dated 1914, left to her all of her husband's property.

KIDNAPED BIELASKI RELEASED BY BANJITS

Mexico City, June 29.—A Bruce Bielaski, kidnapped Sunday, was released this morning. A message stating that Mr Bielaski had been released was received at the American Embassy at 11:15 o'clock. It gave no details except to state that the released man would be in Mexico City tonight.

SHOOTS BETRAYER AFTER 2 YEAR WAIT

Punxsutawney, Pa., June 29.—After searching two years for her alleged betrayer Rose Luce, aged 16, of Vaher today shot and perhaps fatally wounded Philip Scatarogis. He is in a hospital here with a bullet wound in his chest. The girl was arrested after the shooting and lodged in the city jail. The shooting occurred in front of a garage. The girl saw Scatarogis enter the garage and followed him inside. After a lengthy argument, carried on in Italian, the girl screamed "I'll kill you" and drew a revolver. Scatarogis attempted to flee down the street but was dropped by the first shot. He is said to have a wife living in Indiana County.

Wage War on the Fly.

Among the 150 different kinds of bacteria and other organisms taken from the bodies of house flies by different investigators are infantile diarrhea, typhoid fever, anthrax, food poisoning, amoebic dysentery, abscesses, leprosy, tapeworms, hookworms, bubonic plague, conjunctivitis, summer complaint, tuberculosis, enteritis, trachoma, erysipelas, gas gangrene, stomach worms, pinworms and ointballaria.

Copper Welds Iron.

It has been recently discovered that iron may be very firmly and conveniently welded by making use of copper. If a piece of copper on an iron plate be heated in an atmosphere of hydrogen, the copper will spread over the iron in a thin penetrating film. Thus, if the copper be melted between two pieces of iron, it welds them together, the copper film actually working itself in between the crystals of the iron. Blades for steam turbines are among the articles which have been fabricated by this simple and novel means.

RIVERS AND HARBORS BILL REPORTED

Washington, June 29.—The Rivers and Harbors Bill was today ordered favorably reported to the Senate by the Commerce Committee with the provisions relating to the Cape Cod, Boston and New York canal and the Dismal Swamp canal in North Carolina omitted. These were ordered new up until Senator Jones, Washington, chairman, makes a poll of the committee to determine whether they should be included in the bill. It is proposed that both of these canals be purchased by the government as connecting links between Boston and the South.

All are cordially invited.

The Wicked Crow.

According to the opinion of the British Agricultural department, the crow must be classed as a criminal. In a biography of the bird, issued by the department, it says: "Its ability to commit such misdeeds as pulling corn and stealing eggs and fruit and to get away unscathed is little short of marvellous. Much of the crow's success in life is due to co-operation, and the social instinct of the species has its highest expression in the winter roosts, which are sometimes frequented by hundreds of thousands of crows. From these roosts daily flights of many miles are made in search of food. In its destruction of insects the crow often renders good service but its vicious habit of destroying beneficial wild birds and their eggs puts it on the black list."

Tom York, the old time ball player sits every afternoon at the Polo grounds, keeping actors and barbers out of the press box.

Between times he philosophizes and his deductions are not complimentary to the stamina of the modern ball player.

"The players aren't so bad but the pitchers all have glass arms," he wails, and points back to the days when a pitcher thought nothing of winning thirty to forty games a season.

While changes in the pitching rules introduction of the free swing and the lively ball have worked great handicaps that some of the old time marks for "iron man" feats might be approached this season.

In the first third of the race, Urban Shooker of the Browns engaged in nineteen games and won twelve. Walter Ruth of the Brooklyn Robins pitched thirteen games and won eleven. Both are unusual early season performers.

With any kind of luck, both might win thirty games, and establish a mark that hasn't been equaled in several years.

Red Faber was the only pitcher to win twenty-five games last year, and he lost fifteen doing it. One pitcher that has twenty-five victories in him would put about ten major league clubs in the pennant race.

Modern record, do not compare favorably with the old times, but it does not prove that the race is getting less hardy.

WAS SO NERVOUS COULDN'T SLEEP

Eighty Years Old, Says This Remedy Made Him Well.

He went on crutches for two years from neuritis and was so weak, nervous and run down that he could not sleep and yet after taking Nerv-Worth he regained his health and strength and had no return of his neuritic trouble or nervousness.

That was the story told one of our representatives by Capt. Mitchell, one of the prominent citizens of Cory, Pa. If you suffer from stomach trouble, bowel trouble or rheumatism, neuritis, sleeplessness, nervousness brought on by indigestion or chronic stomach or bowel trouble you should immediately try the famous Nerv-Worth that has brought health and comfort to so many ailing people after other remedies had failed and they had about given up hope. It is sold by most druggists at one dollar and each druggist is authorized to give the money back if the results from the first bottle are not encouraging. It is always on sale at the Stewart Drug Store in this city. It is a splendid remedy for constipation, indigestion or nervousness for delicate women or growing children and its pleasant taste attracts them to it.

Pennsylvania's share of the appropriation of Government funds for road construction authorized under the additional appropriations bill signed by the President on June 19 is \$2,265,989. The United States Department of Agriculture, which will administer the funds thru the Bureau of Public Roads, in explaining the appropriation of federal aid for road construction explains that \$50,000,000 of the \$190,000,000 provided for the appropriation bill is authorized for the fiscal year beginning July 1 next and \$65,000,000 and \$75,000,000, respectively for each of the two succeeding years.

The funds allotted to the various states must be matched by the states and are to be administered subject to general provisions already in force.

Being more or less interested in this subject of taking on two much adipose tissue on and after the "half way post" on life's journey is reached, we can't resist the temptation to inflict the following on our fair, fat and forty friends and readers:

If you wish to know whether you are growing old get on the scales. Then measure your height accurately and consult a table of weight-for-height-for-age. You will find that any such table records an increase of weight as the concomitant of increasing years. And while nothing more is claimed for the table than that it represents averages, you may accept it as representing a fair record of facts. Probably there is no other simple record that is more dependable. Obesity and age are very closely associated.

This may be your fortieth birthday but if you find you are weighing 20 pounds or so more than the table says you should, you may count yourself a good many years past forty as regards bodily activities. Your "expectation" of long life is below par.

That very unsentimental person, the life insurance actuary, feels so sure of this that he will not accept you as an average "risk" for his company.

He refuses to be fooled by your birth certificate.

In a word then the individual who accumulates fat advertises an infirmity. It may be that he eats too much. It may be that he is not exercising enough. It may be that the little ductless glands that controls the bodily activities are not functioning normally. But whatever the cause, the body that is accumulating fat is having a handicap imposed upon it.

Most of us regard growing old as a joke. Growing old prematurely is a calamity. Obesity is an old-age signal that no wise person will disregard.

If the fat signals merely tell of over eating or lack of exercise, the remedy is obvious. Eat less and exercise more. That is a very difficult formula to follow but it calls for only courage and persistent effort, and depends entirely upon yourself. It is not even necessary to study tables of calories, although there is no harm in doing so.

It may suffice to follow such a practical rule of thumb as this: Take only a moderate helping of any food and never take a second helping at that meal. Cut out desserts and eat nothing between meals. This regimen alone may suffice to bring your weight back to normal.

As for exercise it may be said that ten minutes a day of well directed effort will accomplish wonders for some people, and something for every one. Exercise must really be vigorous in order to count. But exercise with no restriction of diet is without avail, however vigorous. There may be causes for obesity that do not lie within your unaided control, but this should not be assumed until you have tried faithfully the reducing power of diet and exercise.

INDEPENDENCE NOT YET

When President Harding informed the Filipino mission that the time has not yet come for the United States to relinquish control over the Philippines, he felt deeply the responsibility which is America's. The president's attitude can not have been a great disappointment to the members of the mission, who knew before they left on their quest that their effort must fail.

There have never been indications that it were wise for this country to surrender its charge of the islands. Since General Wood's report was made, detailing at length why in his judgment independence for the Philippines is inadvisable now, there has not been the slightest indication that this country would change its attitude.

The president, like the people, sincerely sympathizes with Filipino aspirations. If those people had no craving for independence we should not esteem them as we do, for it would be apparent that they were far from that state of development in which they might be entrusted with control of their own affairs. Progress they have made since the United States rescued them from the degrading clutches of Spain. They have been given training and proved themselves such apt pupils that their domestic affairs are under native management.

President Harding told the mission the Filipinos would be "unfitted for the solemn duties of self-government without national aspirations," which is to say their present lack is a national consciousness moving them to think in terms of the common welfare in their relations with the outside world. This will come in time, as the people are more accustomed to managing their domestic affairs and become conscious of the responsibilities which a nation must assume.

Very properly the president declined to indicate to the mission when he thought the Filipinos would be equipped to "go it alone." It depends on the Filipinos themselves when they shall become independent in every sense of the term. Under American tutelage they will continue to make progress. While America shoulders the expense and responsibility of their foreign relations and their defense their growing youth are given education, theoretical and practical, which should qualify them not many years in the future to undertake the duties of government for which it is this country's earnest aim to fit them.

The dean of the college of engineering, University of Cincinnati, so the story runs, received a letter from the president of a large corporation manufacturing electrical supplies complimenting the institution for turning out such students as George Sperti. The name meant nothing to the dean, so he went among the engineering college professors and soon discovered that George Sperti is "a hopeless dullard, who is flunking in everything." He was so far below the standard as measured by modern intellectual appraisal procedure that he was considered only as one of the large field beaten before the race begins.

Then the dean wrote to the electrical corporation president asking his object in sending his compliments to the university in the Sperti case, so the story continues to move, and in due course received the information that the corporation had just bought for \$50,000 an entirely new type of electrical meter, invented and patented by the "hopeless dullard." The question would seem to be whether it may not be better to weigh values by the practical results of a young man's use of his brains than the verdict of a pedantic "I Q"—especially when one contradicts the other so decisively.

The bloody disorders in the Herrin coal fields in Illinois is a manifestation of an ugly spirit that shocks the nation. When forty or more men perish in an industrial battle as barbarous and violent as lynching, burnings, drownings and shooting, it startles a country accustomed even to the wholesale killings of a recent war.

No one of course does or can condone such an outrage. The fact that some men went to work in a mine which had been closed down by the strike is not sufficient provocation for shooting them down or hanging them to trees. In so far as they went to and kept at work peacefully they were merely making use of their guarantees of the constitution of their country. If they went beyond that and became law breakers themselves, then their cases were for the courts and not for the mob.

A nation that does not protest against and condemn such outlaws is not worthy of a free government. A government that does not punish the guilty is not fit to function. The outrage is unspeakable and its seriousness must not be underestimated.

The AMERICAN LEGION

For This Department supplied by the American Legion News Service

DADDY OF AMERICAN LEGION

Lester Jones of Washington, D. C., Founder of the Movement Back in 1919.

Lester Jones of Washington, D. C., because he was the founder of the American Legion movement in America, was called the "daddy" of the organization back in 1919 and the title has stayed with him ever since.

Mr. Jones was one of a handful of veterans who met in Washington, March 7, 1919, and formed what was known as the John J. Pershing post of World War Veterans. Later, when the several societies of those who had fought in the World War combined under the name of the American Legion, Mr. Jones was made commander of the newly-formed George Washington post, No. 1. When the department of the District of Columbia was formed, he was made departmental commander.

Legionnaire Jones was an enlisted man with the District of Columbia National Guard prior to the World War. During the war he rose from private to colonel, taking all the grades.

LEGION HONORED ALL DEAD

Organization Participated in Services at Final Interment of Men Brought Home.

Army transports in which many of them went across, eager for the comfort they have carried back the last of the 20,000 A. E. F. dead, those relatives who requested to be returned to this country for permanent burial. The graves registration service of the army, which had the work of returning these bodies in charge, did an almost superhuman task. But this service could not give the comradely human touch to the handling of these bodies after they reached the United States that seemed due them.

No organization was so well suited to perform the last rights of honor and respect for these soldier dead as was the American Legion. The men of the Legion took upon themselves the obligation. Forty ship loads of bodies came to eastern ports during a period of two and a half years. It was not always possible to have an elaborate service, because the arrivals were too frequent, but in every instance there was at least a prayer by a chaplain of the Protestant, Catholic or Jewish faith, an address by a prominent citizen or army officer and a rifle salute.

A number of times, however, the services were noteworthy. President Harding delivered an address at services arranged by the Legion, May 23, 1921, when the Princess Matoika arrived with 451 bodies. General Pershing and Senator Lodge spoke when the Somme and the Wheaton arrived July 10, 1921, with 7,000 dead. The last cargo of bodies arrived in Brooklyn in April, 1922, on the Cambray. On that occasion, the body of Private Charles W. Graves, Company M, One Hundred and Seventeenth Infantry, Thirteenth division, was borne in a caisson through the streets, lined with silent throngs, to the army base. There simple ceremonies marked the close of the last public demonstration for America's returned dead.

RAN TOWARD BERLIN IN 1918

Clarence De Mar, Winner of 25-Mile American Marathon Race, In-Created in Boy Scouts.

Clarence H. DeMar of Melrose, Mass., winner of the 25-mile American Marathon race, got some of his endurance as a long-distance runner while running toward Berlin in 1918, and he undoubtedly acquired a good deal of his agility and sureness of foot while dodging Fritz's missiles. De Mar finished fourth in a long-distance race between the men of the A. E. F. and the other allied nations in the Pershing stadium in Paris.

His chief interest, however, does not seem to be in racing, but in the welfare of a troop of boy scouts of which he has been in charge for several years.

Ten Years to Displace the Blue. It will require about ten years to clothe all French troops in khaki despite the efforts of the higher council of war to equip all branches of the French army in uniforms of that color. The horizon blue and steel gray cloth on hand must be used up and it will take ten years to do it, the ministry of war declares.

Operators And Miners To Meet Harding Saturday

Washington, D. C., June 28.—Invitations went out from the White House today asking the leaders of the striking miners and the representatives of the employing coal operators in both the bituminous and anthracite fields of the United States to meet President Harding Saturday to "devise methods upon which negotiations for the settlement of the coal strike can be initiated."

The communications made evident that careful and complete discussions with spokesmen on both sides of the industrial struggle had preceded the meeting call, and prompt and ready acceptances are expected immediately.

Lewis Accepts for Men

John L. Lewis chief of the United Mine Workers, who remained in the city after a personal interview with President, accepted at once in behalf of the union.

The wording of the President's message was interpreted as demonstrating the desire of the Administration to hold the meeting above the controversies which have deadlocked the unionized section of the industry since April 1. Official, but informal, comment emphasized it was the intention that the conference should be held merely to discuss ways and means for a settlement, and not to take up the miners' demands for continuance of war-time wage scales, nor the operators' demand in the bituminous field for separate district wage agreements supplanting the semi-national wage contracts that have heretofore been made.

It was fully expected that when the meeting assembled the President or his Cabinet members who have participated in the preliminary efforts would have a program for continuation of the settlement attempt to present to the assemblage. There was no hint as to the line such a program might follow.

Face Danger Steadfastly

Dangers are no more light, if they once seem light; and more dangers have deceived men than forced them; nay, it were better to meet some dangers half-way, though they come nothing near, than to keep too long a watch upon their approaches; for if a man watch too long, it is odds he will fall asleep.—Lord Bacon.

FLANNERY JURY, STILL OUT, WEAR OUT CLOTHING

Pittsburgh, Pa., June 29.—The jury in the trial of James J. Flannery, Hazelwood undertaker, was still without a verdict when court convened here after lunch. Extra change of clothes were sent into the jury room, indicating an attempt will be made to equal the record of several years ago when a jury was out eleven days.

GREAT CARD OF BOXING ARRANGED FOR THE FOURTH

Prize fight fans and all others who are interested in good clean sport are well pleased with the card arranged by the Legion boys for the night of July 4th and the way in which the fights will be conducted. Some of the leading pugilists in the Pittsburgh district have contracted and as four of the men secured are contenders for the title in their weight you can be assured of sixty seconds fight every minute.

In the main bout of ten rounds Eddie Boreland, of McKeesport meets Young Mulligan of Pittsburgh. Boreland, known as the miniature Jack Dempsey challenges the best in the world at 126 to 133 pounds and is reputed to be one of the best young fighters at his weight in the country. He has fought in over 100 bouts and has a record of twelve knockouts in the last twenty-five fights.

Mulligan is Champion of the U. S. Navy yards at Philadelphia in his weight and has on two previous occasions met Boreland in draw fights and has knocked out or been given the decision in a big majority of his 150 fights. These men fight at 133 pounds.

Jack Provisti of Wilmerding meets Johnny Kerston in the eight-rounds semi-final at 141 pounds. Both of these men have been fighting main bouts all year and were secured to fight other than the main bout by special inducement of those in charge. Both of these men are clever in the boxing end of the game and carry a hefty wallop so it would not be surprising if those who attend the fights will witness a better battle between Provisti and Kerston than the one last year between John Wolgast and Sailor Remshaw.

The first bout will be between Knockout Terry of McKeesport and Jack Smith of Pittsburgh, two feather

weights who have taken part in forty fights and are both exceptionally fast. They will fight eight rounds.

All of the above fighters have signed a contract to the effect that if "He is found stalling and not putting forth his best efforts he can immediately be disqualified and shall receive no share of the proceeds." This provision in the contracts insures the people that the fights will not be faked and that every participant will have to be in the game every minute to receive any part of the gate receipts. To further insure the patrons of the fight the best that can be secured the Legion has asked and received the acceptance of most of the following men to act as Boxing Commission: J. P. O'Laughlin, Esq., Dr. G. B. Yeane, Ralph Jordan, J. D. Connelly, Charles Oberdick, Thos. J. Lowell, Roy Healey, Howard Burns, all of Clearfield and John Irwin of Curwensville. This Commission will, thru the referee, notify or disqualify any fighter who in their opinion is not putting forth his best efforts.

Shakespeare Rating in 1923.

As the Greek tongue is made famous and eloquent by Homer, Hesiod, Euripides, Aeschylus, Sophocles, Pindarus, Herodotus and Aristophanes; and the Latin tongue by Virgil, Ovid, Horace, Plautus, Terence, Lucanus, Livius, Seneca, Cicero and Claudius; so the English tongue is mightily invested in its ornaments and resplendent in its beauties by Sir Philip Sidney, Spenser, Donne, Dryden, Warner, Shakespeare, Marlowe and Chapman—Franklin to the British Nation.

MONTHS OF SUFFERING

How a Baltimore Girl Recovered Her Health

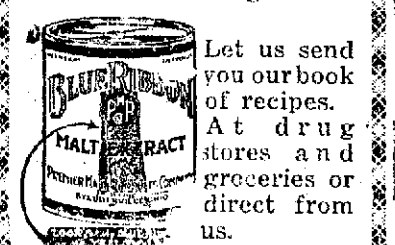

Baltimore, Maryland.—"For several months I suffered with severe backache and general weakness. I could not sleep comfortably at night for pains in my back. I found your book at home one day and after reading it began at once to take Lydia E. Pinkham's Vegetable Compound. I have had very good results and one of my girl friends are taking it now. You may use this letter to help other girls, as the letters in your book helped me."—ROSS WARDEN, 3922 Reseland Place, Baltimore, Md.

That is the thought so often expressed in letters recommending Lydia E. Pinkham's Vegetable Compound. These women know what they have suffered, they describe their symptoms and state how they were finally made well. Just plain statements, but they want other women to be helped.

Lydia E. Pinkham's Vegetable Compound is a medicine made from medicinal roots and herbs, and without drugs, to relieve the sickness women so often have, which is indicated by backache, weak feelings, nervousness, and no ambition to get anything done or to go anywhere. It has helped many women. Why not try it?

We Recommend the Tires That Have Won Every Important Racing Classic for Two Years

ONE of the reasons why you can be sure of Oldfield reliability under all conditions is their performance on the speedways during 1920 and 1921.

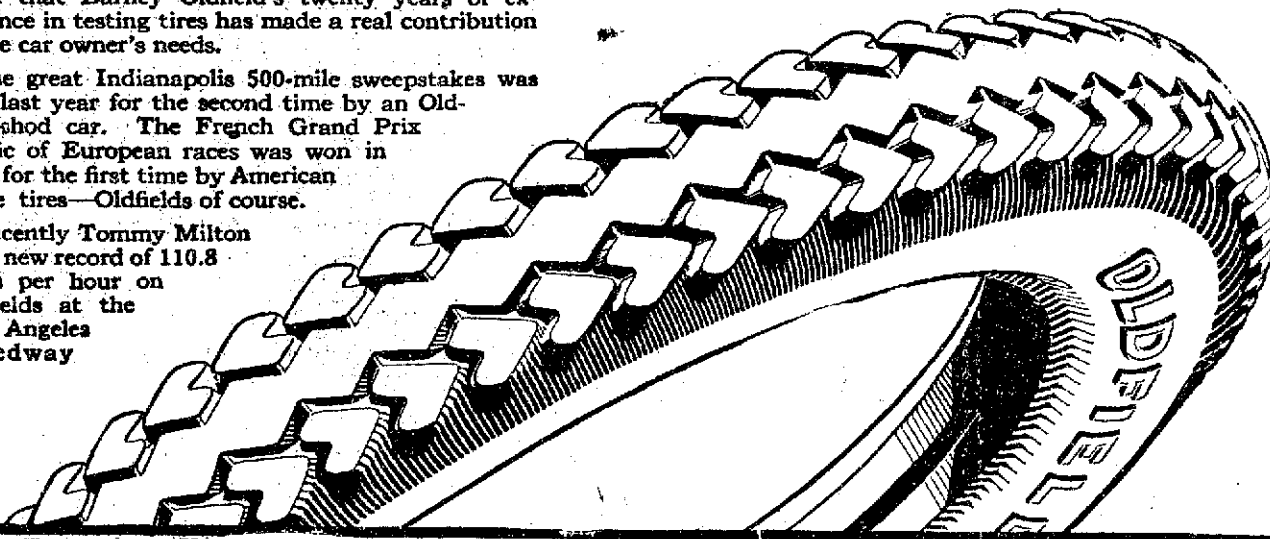

When you consider that every important racing classic in that time has been won on Oldfield Cords you cannot fail to be impressed. It is incontrovertible proof that Barney Oldfield's twenty years of experience in testing tires has made a real contribution to the car owner's needs.

The great Indianapolis 500-mile sweepstakes was won last year for the second time by an Oldfield-shod car. The French Grand Prix classic of European races was won in 1921 for the first time by American made tires—Oldfields of course.

Recently Tommy Milton set a new record of 110.8 miles per hour on Oldfields at the Los Angeles Speedway

when he paced first in the 250-mile championship

Such facts are doubly important to you when you appreciate that these same trustworthy tires carry our own and the maker's backing can be bought at the lowest prices on record. It is easy to see why so many car owners hereabout are standardizing on Oldfield's for this year.

ALTOONA VISITORS ARE VERY GRATIFIED

The five hundred Altoona visitors who picnicked at the Clearfield Driving Park yesterday were highly pleased with Clearfield, the Park and the manner in which Clearfield people made them welcome.

Mayor Kittelberger, Presidents of Bigler of the Rotary Club and Franz of the Commercial Club, with large corps of assistants, saw to it that the visitors were transported from the Pennsy. station to the Park upon their arrival in the morning, and also braved the heavy rain in the evening to get the picnickers back to the train with the least inconvenience.

The whole thing was handled in Clearfield's usual fine style, six more automobiles being lined up at the park in the evening than were necessary to handle the crowd. Addresses were made at the park by Mayor Kittelberger, in the afternoon, who extended the freedom of the town in a few well chosen sentences. Rev. Horace Lincoln Jacobs, of Trinity church, a former Mountain City resident, made a snappy address to the visitors which was exceptionally well received. The visitors were very grateful for their reception and promised to long remember their visit here.

The following was given to The Progress for publication:

"The Committee of the P. R. R. Shops of Altoona, picnicking at Clearfield Driving Park, wishes to thank Mayor Kittelberger, the Clearfield Park Association for the royal welcome extended them. Our thanks are especially due and extended also to Rev. H. L. Jacobs, the Rotary and Commercial Clubs and those merchants who provided the cantaloupes
